Planned conference in terms of Project Action Plane with changed date from March 2012 to May 2012. This will be the last "project event/activity".

Jointly for our common future

Validation of expenditure of the last reporting and Final PR& AFR

- The project end date and the reporting deadline of the final report is project specific.
31.05.2012 01.09.2012

- Each partner shall contact its controller in due time in order to be able to validate the expenditure of the last reporting period **within 3 month from the project end date.**

- Costs incurred in the last reporting period and control costs related to the Final Progress Report **have to be paid within 60 days from the project end date at the latest** are very much recommended to start the validation of expenditure of the last reporting period even if not all costs are paid yet, providing the Partner Report, invoices and supporting documents to the controller together with **the list of expenditure for which the proof of payment will be presented only after payment.**

- **Controllers are informed by the JTS on the project end dates and the deadlines of the final reports and advised to start the validation process even if not all proof of payments are provided. Of course, Declarations on validation of expenditure can be issued only in case all proofs of payments are provided to the Controller.**
