 15th-16th July, 2009 1st Workshop, Senec 5

Tasks for "old" PPs

- To revise the content of the DONAUREGIONEN GSTTI and provide information on new developments, if any (both in text and GIS)
- Special attention should be paid on verifying if any of the "planned" infrastructure in GSTTI has become "actual" and if there are new sectoral schemes or planning documents that propose new infrastructure

Justify for our common future
 15th-16th July, 2009 1st Workshop, Senec 6

Tasks for “new” PPs

- To provide text and GIS data on all segments of TTI according to templates and instructions to be provided by the responsible partner (10% PP5)
- Special attention should be paid on specifying “actual” and “planned” infrastructure

Justify for our common future

15th-16th July, 2009 1st Workshop, Senec 7

Tasks for 10% PP5

- To revise previous templates and prepare relevant information
- To provide all PPs involved in data completion with templates and detailed information
- To collect and process received data and information
- To maintain communication with relevant PPs and provide presentations on the achieved results at workshops
- To complete analysis and prepare Strategy of Transport and Technical Infrastructure
- To report to the ERDF PP8 and the LP on achieved activities by periods

Justify for our common future

15th-16th July, 2009 1st Workshop, Senec 8

First steps

Until the end of August, 2009

- Revision of previous text and GIS templates
- Preparation of relevant information for relevant PPs
- Transmission of new templates and information to relevant PPs

During September, 2009

- Communication with relevant PPs
- Preparation of first information on Sectoral scheme/strategy for the purpose of the 2nd Workshop
- Participation in the 2nd Workshop

Justify for our common future

15th-16th July, 2009 1st Workshop, Senec 9

Possible problems in implementation

- Time overlap with other sectoral schemes/strategies and other activities which might result in a slower process of data collection and processing
- Unequal burden for “old” and “new” PPs to complete data and other information
- Unequal situation with GIS data among different PPs

Justify for our common future

15th-16th July, 2009 1st Workshop, Senec 10

Strategy of TTI – General Framework

- To be developed on the basis of the main findings of analytical part with a particular emphasis on the existing and planned infrastructure and installations
- To be developed according to EU, UNECE and other agreed pan-European strategies, policies and principles dealing with spatial development, transport and technical infrastructure

Justify for our common future

15th-16th July, 2009 1st Workshop, Senec 11

Thank you!
