Jointly for our common future

National Regional Development Concept 97/2005. (XII.25.) Parliamentary Assembly Resolution

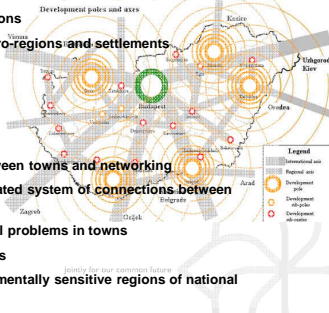

For 2020...

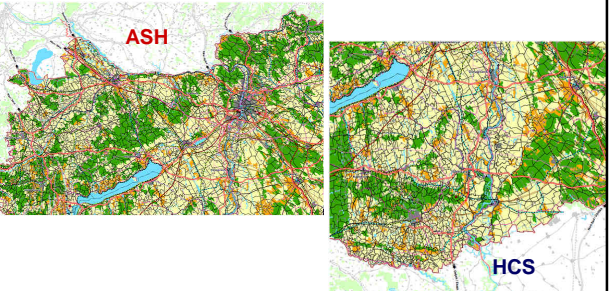

National Regional Development Concept

1. National convergence
2. Convergence for disadvantaged regions
3. Convergence for disadvantaged micro-regions and settlements
4. Development poles
5. Strengthening the relationships between towns and networking
6. Establishing and renewing an integrated system of connections between urban and rural areas
7. Addressing environmental and social problems in towns
8. Change in the functions of rural areas
9. Sustainable development of environmentally sensitive regions of national importance

The National Spatial Plan elaborated in 1999-2002 as a follow up of Act XXI of 1996
